# Clee

## Supported Components

The following components are compatible with Clee - the intelligent energy management system by KWB:

### Boiler

**with KWB Comfort 4 control unit**

1. KWB Easyfire 2
2. KWB Easyfire 3
3. KWB Multifire 2
4. KWB Pelletfire Plus

### Bufferstorage

**with 5 buffer temerature sensors (can be retrofitted)**

### Photovoltaics

**The following brands/ models:**

#### 1. Fronius

- Inverters
  - i. Gen24
  - Symo
  - Primo
- Smart meter
  - TS 65A-3
  - 50kA-3
- Batteries
  - BYD HVM
  - BYD HVS
- Other
  - Ohmpilot

#### 2. HUAWEI

- Inverters
  - All models up to 25 kW
- Smart meter
  - Smart Power Sensor DTSU666-H 100A
  - SmartPS-80AI-T0
- Batteries
  - LUNA2000-5/10/15-S0

#### 3. Solar Edge

- Inverters
  - Solaredge SE 5/6/9/10/12,5/16K

### Solar thermal plants

**from KWB and all other manufacturers**

### Power-to-Heat

**Conversion of (surplus) electricity to heat**

1. KWB EmpaAir Hydro Split 4.2
2. **Additional heat pumps** with potential-free contact or Smart Grid Ready contact (SG ready)
3. **Controllable heating rods:** KWB PV-HEAT Plus
4. **Conventional heating rods** (switch on/off) all manufacturers/brands

- Requirements for Clee are compatible components and a stable internet connection.
- The list of compatible components is constantly being expanded. The latest status can always be found here:
